

NEW ZEALAND PLANT CONSERVATION NETWORK 2011 Annual General Meeting and panel discussion

Is biodiversity offsetting good for New Zealand's plants and animals?

11
November
2011

5.30 pm AGM and Network awards ceremony

7.00 pm Food and drinks followed by panel discussion

Venue Turnbull House, 25 Bowen Street, Wellington

All welcome (gold coin donation for non-Network members)

RSVP by 5 November to info@nzpcn.org.nz www.nzpcn.org.nz

SPEAKERS:

Marie Brown is a PhD Candidate at the University of Waikato, researching mitigation and offsetting under the Resource Management Act 1991. Marie has qualifications in science and law, and a professional background in local government enforcement and policy having formerly worked for North Shore City Council.

Dr Susan Walker is a plant ecologist in the biodiversity & conservation team at Landcare Research. Her research interests range from the ecology and loss of modified dryland ecosystems to the theory and practice of biodiversity measurement, prioritisation and reporting.

Dr Neil Mitchell is a senior lecturer at the University of Auckland's School of Environment. His research interests include species-climate interactions and the effects of climate change; restoration ecology and ecological management of production environments.
