

Isobel Gabites 1997.

MANA ISLAND / MAINLAND SITES .  
GENERALISED SITE DESCRIPTIONS

(see survey forms for vegetation structure and abundances)

Notes on:  
species predominance on different soil types  
regeneration patterns  
factors influencing communities  
species lists for sites

PAEKAKARIKI HILL ROAD (TwS)

Dicot Trees & Shrubs

Alectryon excesus  
Aristolelia serrata (iv)  
Brachyglottis repanda  
Carmichaelia arborea  
Coprosma propinqua var latiuscula  
C. robusta  
Corynocarpus laevigatus  
Dysoxylum spectabile  
Geniostoma rupestre  
Hebe stricta  
Kunzia ericoides  
Macropiper excelsum  
Melicope ternata  
Melicytus ramiflorus  
Myoporum laetum  
Myrsine australis  
Olearia paniculata  
Pittosporum crassifolium  
P. tenuifolium  
Pseudopanax arboreus  
Schefflera digitata  
\* Ulex europaeus

Dicot Lianes

Muehlenbeckia complexa  
Parsonsia heterophylla

Dicot Herbs

Stellaria decipiens

Monocot Lianes & Herbs

Ripogonum scandens  
\* Tradescantia fluminescens

Ferns

Asplenium hookerianum  
A. oblongifolium  
Pellaea rotundifolia  
Phymatosorus diversifolius  
Polystichum richardii  
P. richardii x silvaticum  
Pyrrhosia eleagnifolia
