

APPENDIX 1. List of woody plants recorded from the Motukaraka forest
(NZMS 260 : R26 : 698 108)

Unless otherwise indicated, this list refers to woody plants sighted during a 1.5 hr visit on 16 May 1989.

a = more than 20 individuals seen
m = 5-20 individuals seen
+ = < 5 individuals seen
* = introduced or indigenous but not natural to area

Species	Common Name	Abundance
<i>Alectryon excelsum</i>	titoki	a
<i>Beilschmiedia tawa</i>	tawa	a
<i>Coprosma areolata</i>	-	+
<i>C. repens</i>	taupata	m
<i>C. robusta</i>	karamu	+
<i>C. robusta</i> x <i>C. propinqua</i>	hybrid coprosma	+
<i>Corynocarpus laevigatus</i>	karaka	a
* <i>Crataegus monogyna</i>	hawthorn	m
* <i>Elaeagnus</i> x <i>reflexa</i>	eleagnus	a
<i>Elaeocarpus dentatus</i>	hinau	+ (1 adult tree)
<i>Hoheria populnea</i> var. <i>lanceolata</i>	hohere	m
<i>Kunzea ericoides</i>	kanuka	+ (1 adult tree) - more (3)
<i>Macropiper excelsum</i>	kawakawa	a
<i>Melicope ternata</i>	wharangi	m
<i>Melicytus ramiflorus</i>	mahoe	a
<i>Muehlenbeckia complexa</i>	pohuehue	m
<i>Myoporum laetum</i>	ngaio	a
<i>Parsonsia</i> sp. (probably <i>P. heterophylla</i>)	parsonsia	a - 4 surviving lanes
<i>Pennantia corymbosa</i>	kaikomako	m
* <i>Pittosporum crassifolium</i>	karo	+
<i>Prumnopitys taxifolia</i>	matai	+ (1 juvenile, 7.12.1977)
<i>Pseudopanax crassifolius</i>	houpara	+
* <i>Rubus</i> sp.	blackberry	a
* <i>Sambucus nigra</i>	elder	m
<i>Streblus</i> (<i>Paratrophis</i>) <i>banksii</i>	milk tree	+ (1 juvenile, 7.12.1977)
<i>Solanum laciniatum</i>	poroporo	m

Microphylla (2)

mapou

did not see hinau or houpara.
