

# INDIGNOUS VASCULAR PLANTS OF THE PEARCE WETLANDS, WAIRARAPA

Based on BOTANICAL SURVEYS OF AREA COMPLETED BY COLIN OGLE, TOM MOSS AND TONY DRUCE (see Ogle, et al. 1990).

## Dicot shrubs (2)

*Coprosma propinqua*  
*Leptospermum scoparium*

## Dicot lianes (2)

*Muehlenbeckia complexa*  
*Rubus schmidelioides* var *schmidelioides*

## Ferns (Filicopida) (2)

*Hypolepis ambigua*  
*Pteridium esculentum*

## Sedges (10)

*Carex lessoniana*  
*Carex secta*  
*Carex virgata*  
*Cyperus ustulatus*  
*Eleocharis acuta*  
*Eleocharis pusilla*  
*Isolepis cernua*  
*Isolepis nodosa*  
*Isolepis prolifer*  
*Schoenoplectus pungens*

*Hydrocotyle novae-zeelandiae* s.s.  
*Hypsela rivalis*  
*Lilaeopsis novae-zeelandiae*  
*Myriophyllum propinquum*  
*Polygonum salicifolium*  
*Pratia angulata*  
*Pratia perpusilla*  
*Ranunculus limosella*  
*Ranunculus macropus*

U:\data\FHF\pearce.doc

## Rushes (5)

*Juncus australis*  
*Juncus gregiflorus*  
*Juncus pallidus*  
*Juncus sarophorus*  
*Leptocarpus similis*

## Monocot herbs (other than orchids, grasses, sedges and rushes) (3)

*Triglochin striata*  
*Typha orientalis*  
*Zannichellia palustris*

## Dicot composite herbs (4)

*Centipedia minima* ?  
*Cotula coronopifolia*  
*Gnaphalium involucreatum*  
*Leptinella dispersa* subsp. *dispersa*

## Dicot herbs other than composites (14)

*Callitriche petriei* subsp. *petriei*  
*Crassula sinclairii*  
*Epilobium insulare*  
*Glossostigma diandrum*  
*Hydrocotyle hydrophila*
