

SOME INDIGENOUS VASCULAR PLANTS IN VICINITY OF CORNER CREEK AND DRY CREEK CATCHMENTS, PALLISER BAY, ENTERING SEA AT G.R. NZMS 260 MAP TURAKIRAE, R28 808796 AND 806794 RESPECTIVELY, COMPILED ON 5/2/94 BY WELLINGTON BOTANICAL SOCIETY.

MONOCOT TREES

Cordyline australis

TREES, SHRUBS AND TRAILING PLANTS

Brachyglottis greyii

Brachyglottis repanda

Coprosma propinqua var. *latiuscula*

Coprosma robusta

Corynocarpus laevigatus

Hebe stricta var. *atkinsonii*

Hedycarya arborea

Helichrysum aggregatum

Knightia excelsum

Leptospermum scoparium

Melicytus ramiflorus

Myoporum laetum

Melicope simplex

Melicope ternata

Olearia paniculata

Pseudopanax crassifolius

Pseudopanax ferox

LIANES

Clematis sp.

Parsonsia heterophylla

FERNS

Adiantum cunninghamii

Asplenium hookerianum

Asplenium terrestre

Asplenium terrestre var. *maritimum*?

Blechnum "common lowland"

Ctenopteris heterophylla

Hypolepis sp.

Lastreopsis microsora

Pellaea rotundifolia

Phymatosorus pustulatus

Pneumatopteris pennigera

Polystichum richardii

Pteridium esculentum

ORCHIDS

Earina autumnalis

Pterostylis (*banksii*?)

GRASSES

Cortaderia toetoe
Austrofestuca littoralis
Festuca multinodis
Poa anceps

SEDGES

Carex sp.
Uncinia leptostachia
Cyperus ustulatus

RUSHES

Juncus validus
Isolepis prolifer

DICOT HERBS OTHER THAN COMPOSITES

Schizeilema trifoliolatum
Hydrocotyle moschata
Acaena anserinifolia
Wahlenbergia sp

MONOCOT HERBS

Arthropodium candidum
Phormium cookianum
Phormium tenax
Typha orientalis
