Observations of plants - Tararuas

Aciphylla "Tararua" - 3/94

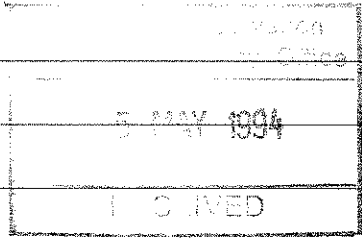

- Some plants on the track up to Powell Hut, just out of the bush edge. Plants had seed on, but not ready.

Aciphylla dissecta

- 3/94 - Holdsworth on track edges above & below Powell Hut
- Along track from Fields Hut to Kirite, often on banks, wet areas on Table Top
- Pukematawai on exposed rock faces
- Tararua Peaks
- Baldy (between Broxen Axe Pinnacles & Mitre Stms)

Helmsia hieracifolia

- 3/94 - Holdsworth - clings rock faces above Powell Hut
- 1/94 - Along main range between Nicolls → Junction Knob especially around Mt Crawford. - Seems to be at a certain height & not above or below

Hebe evenosa

- 94 - Outside Powell Hut directly below on the bush edge
- One plant on bush edge below Nicolls Hut (probably lots more - getting dark & misty)

Leania lacunosa

? "alpina"

- 1/94 - Bush edge on track up to Powell & Jumbo
- (ages ago) - Bush edge on East Holdsworth Track.
- 3/94 - Bush edge coming up from Park R to Nicolls
